

Monster Puck Cleaner **user guide**

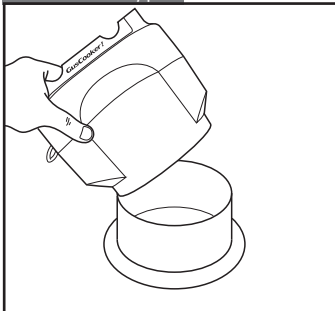

What's in the box

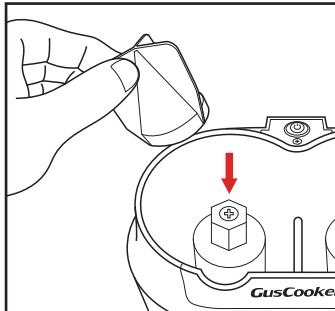

- ① machine body ② machine stand ③ two distinct blades ④ monster brush
 ⑤ silicone bumper ⑥ power cable with adapter ⑦ dust brush ⑧ user's guide

<Set up Guide>

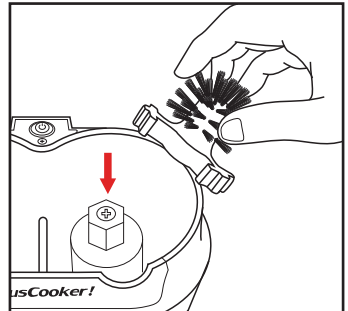

Standard type

Fit the body into the stand.

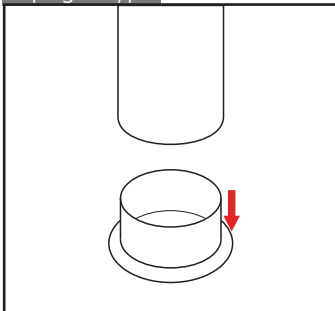

Install blade on left hex cap from front.

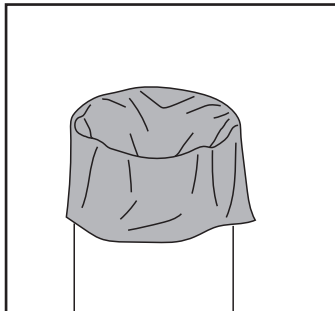

Install brush on right hex cap.

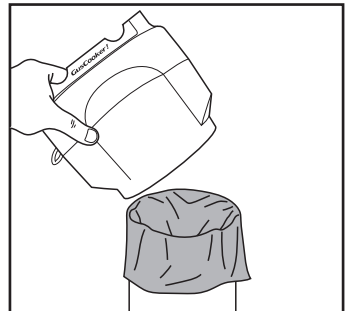

Upright type

Insert the stainless post into the separated stand.

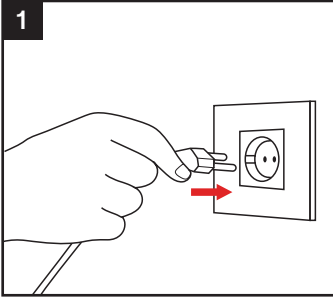

Place the stainless post into the provided plastic bag.

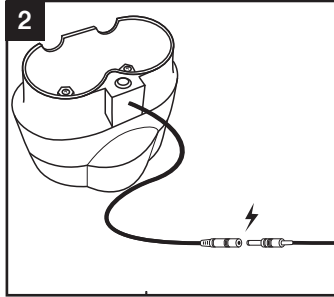

Insert the main body to the top of the stainless post. (a tight fit is normal)

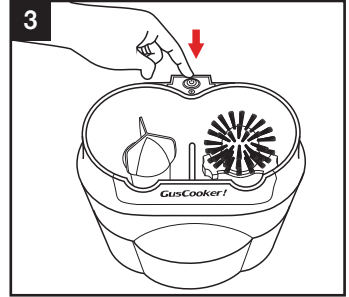

<How to Use>

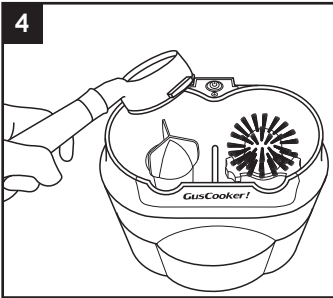

Plug the power cable into an outlet.

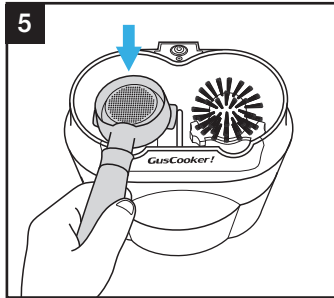

Connect the rear-mounted cable to the adapter.

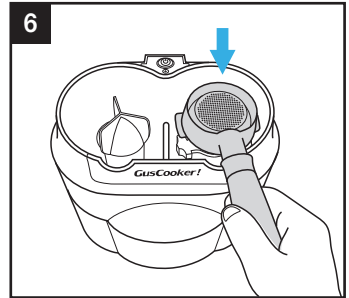

Press the power switch and check for the red indicator light.

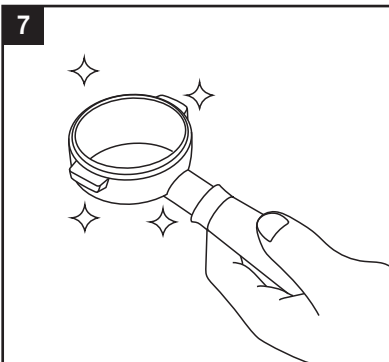

Flip the portafilter with used coffee puck over the left blade.

Press gently for 1-2 seconds.

Repeat the same process on the right brush.
(Angle with wrist to reach corners)

Stare lovingly at your sparkling-clean portafilter. The next coffee awaits.

<Warning>

1. Do not wash with water. Wipe with a cleaning cloth.
2. Never wash the brush with hot water.
3. Do not hit or strike the portafilter forcefully.
4. Do not operate with excessive force.
